

# KOALAHero Family Tasks

Let's play the data cards together!

0

Each data card illustrates the different types of data that might be collected from children's apps

Parents and children can select 3 most used apps by the children, such as a social media app, a gaming app, or an educational app, and complete the tasks together

1

## Data Collection

1. Discuss: What might be the different types of data that can be collected by this app
2. Go through all the data cards, discuss the data that can be collected by the app, and lay them out in front of you

2

## Data Transmission

1. Discuss: Where do you think your data may be sent to, such as companies or countries?
2. Look through the data cards, and discuss what different types of data may get shared across platforms.

3

## Data Processing

1. Now that you discussed the different types of data might get collected and shared, can you brainstorm on how different types of data might be used.

4

## Reflect

1. How many data cards do you have in front of you now? Are there more data cards than you anticipated or fewer? Do you feel you learnt something new from each other?
2. Would you like to take a look at a different app now?
